Component Search

After successful login, Default page will be component search.
User Can search the component by following

- By Component Type
- By Manufacturer
- By Manufacturer part number
- By IPN
- By Description (Refer Description search Document)

New Component Request

My New Component Requests

Modify Component Request

My Modification Requests

New Component Request

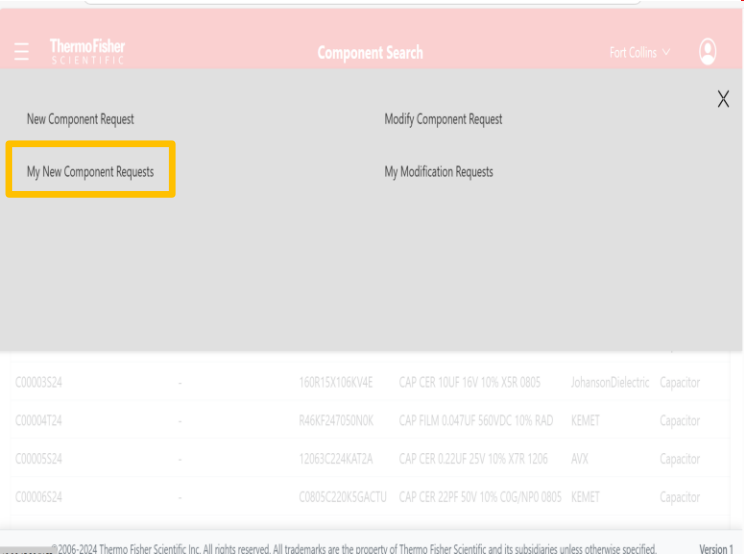

- Fill in all the fields and attach the supporting documents, such as datasheets, drawings, etc.
- Click Submit once all the fields are completed.

New Component Request

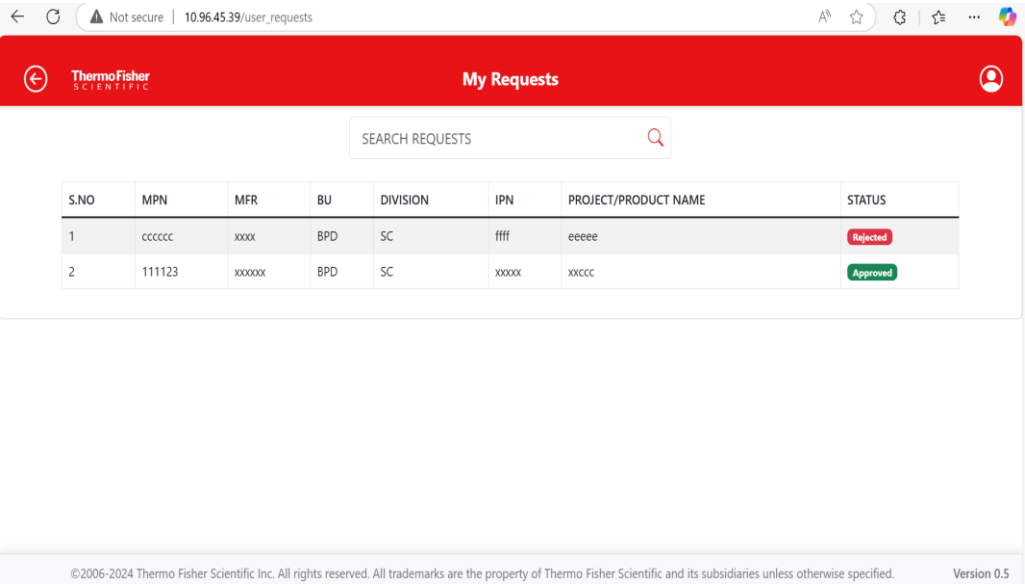

Component Type Select Component Type	
Manufacturer Part Number *	Manufacturer * Add
BU Select BU	Site Select Site
Product/Project Name *	IPN *
Order Of Execution * ☐ Symbol First Followed by Footprint ☒ Everything Together	Datasheet * Choose Files No file chosen Maximum allowed file size for each attachment is 20MB. Only PDF files are supported.
Is Datasheet Password Encrypted? * ☐ Yes ☐ No	
Reset Submit	

New Component Request-Status

- After submitting the New Component Request, you can track its status.
- To check the status, click on My New Component Request.

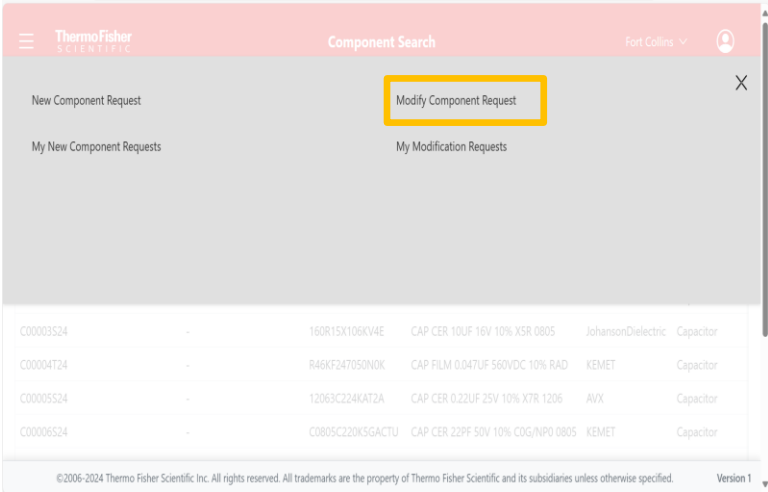

- After navigating to Request > My New Component Request, you can view the status of your request.
- If the Librarian approves your request, the status will show as Approved in the status column.
- If the Librarian rejects your request, the status will change to Rejected in the status column.

Modify Component Request

- If any modification is required for an existing component, the user can raise a modification request.
- Click on Modify Request Component to proceed.

- Fill in all the fields and attach the supporting documents, such as datasheets, drawings, etc.
- After entering the IPN, the part number will automatically populate from the database.
- Click Submit once all the fields are completed.
